

Press Release - Odor-Free ICP Solvent

Montreal, August 6th, 2008. – **Conostan**, a division of SCP SCIENCE, – introduces PremiSolv ICP solvent - a zero-odour alternative to kerosene or xylene for use as a diluent and “zero” point standard in ICP/DCP analysis. Available in 1 or 5 gallon bottles including a complete certificate of analysis listing 33 elements of extremely low metal content. Non-hazardous solvent make it ideal to ship and dispose of. Used in environmental, petrochemical manufacturing and machinery condition monitoring. For a free 400 ml sample (catalogue number 150-700-000), please contact your local SCP SCIENCE sales representative.

About Conostan

In November 2007, Conostan was acquired from ConocoPhillips and relocated to the **SCP SCIENCE** corporate headquarters. **SCP SCIENCE** is successful, privately owned manufacturer and distributor of analytical equipment, supplies, reagents, and certified reference standards for the atomic spectroscopy and inorganic analytical laboratory market. Corporate headquarters is located at 21800 Clark Graham, Baie D'Urfé (Montréal), QC, Canada H9X 4B6. The company maintains additional facilities in Canada, the USA, China and Europe.
