Business Partner – Official Information

AnalytiChem and SCP SCIENCE are pleased to announce the sale of SCP SCIENCE to AnalytiChem effective April 12, 2022.

To AnalytiChem, SCP SCIENCE brings its wealth of atomic spectroscopy product manufacturing and global distribution. To SCP SCIENCE, AnalytiChem will provide synergistic product manufacturing and a new phase of market and product development.

Seignory Chemical Products Ltd, known globally as SCP SCIENCE is a federally incorporated Canadian company with headquarters in Baie D'Urfé (Montréal), Quebec, Canada and European offices in Courtaboeuf (Paris), France and Marktoberdorf, Germany.

The company was founded in 1980 by George Feilders and is a market leading manufacturer of sample preparation instruments including microwave and graphite block digestion systems, environmental chemistry analyzers, certified reference materials, matrix standards, specialized chemistry reagents, and graphite, plastic, glass and quartz consumables for the atomic spectroscopy market. SCP SCIENCE is also the owner of the globally recognized Conostan line of oil-based standards. In addition to having an ISO 9001 certification covering all locations, the company is also accredited to ISO 17025 and ISO 17034 for the production of certified reference materials at its Canadian manufacturing facility.

“We are excited to welcome another industry leader within our group, even more as this expands our technological and geographical reach for the benefit of our global customer base.” said Raoul Biskupek, Group CEO of AnalytiChem.

“The integration of SCP SCIENCE into the expanding AnalytiChem family is an obvious next step for SCP SCIENCE and offers product and market growth that will be an exciting opportunity for our employees and distributors to the benefit of our thousands of clients around the globe” commented George Feilders. To ensure a successful transition, George Feilders will continue with SCP SCIENCE for the immediate future.

About AnalytiChem

AnalytiChem Holding GmbH was formed in early 2021, beginning a journey to create a family of companies providing high-quality analytical chemistry and reference materials to laboratories around the world. Current portfolio companies of AnalytiChem are Bernd Kraft in Germany, OREAS in Australia and Canada, the Chem-Lab group in Belgium and Northeast Laboratory Services in the US.
