# Safety Data Sheet

**SECTION 1** Identification of Substance/ Preparation and Company/

Undertaking

**Product Name:** PlasmaCAL single element calibration standard for ICP-AES and ICP-MS

**Matrix:** 7% nitric acid containing the following elements:

> 10000 μg/ml: Magnesium (Mg)

Catalogue Number: 140-061-12x

### Manufacturer/ Supplier:

Canada/ International	USA	France	Germany
21 800 Clark-Graham	3rd Party Distribution Center	12 Ave du Québec	Alte Marktoberdorfer
Baie d'Urfé, (Montreal)	348 Route 11, Champlain,	Bât Iberis, SILIC 642	Straße 14, 87616

In the event of a transport emergency, call Chemtrec (24 h): 1-703-527-3887 In the event of medical emergency, call your local poison centre or equivalent.

#### **SECTION 2 Hazards Identification**

## **Emergency Overview GHS**

Harmonized Classification - Annex VI of Regulation (EC) No 1272/2008 (CLP Regulation)

**Classification:** (Nitric Acid) **Pictograms:** 

Corrosive- Category 1B

Signal Word: Danger **Hazard Statements** 

**H314:** Causes severe skin burns and eye damage.

**Precautionary Statements** 

**P260:** Do not breathe fumes/gas/mist/vapors/spray.

**P264:** Wash thoroughly after handling.

**P280:** Wear protective gloves/protective clothing/eye protection/face protection. **P301+P330+P331:** IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

P303+P361+P353: IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. P304+P340+P310: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor/physician.

P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

**P405:** Store locked up.

**P501:** Dispose of contents/container according to federal, regional and local government requirements.

## **SECTION 3** Composition and Information on Ingredients

CAS No.	<b>Chemical Name</b>	Percent	<b>EC Number</b>
7697-37-2	Nitric acid	7%	231-714-2
7439-95-4	Magnesium	1.0%	231-104-6
7732-18-5	Water	91-100%	231-791-2

The preparation also contains water and trace amounts (< 0.001%) of various metals and metallic salts.

### **SECTION 4** First Aid Measures

### In case of contact:

**Eye:** Immediately flush eyes with plenty of water for at least 15 minutes, holding the eyelids open. Neutral saline

may be used as soon as it is available. Do NOT interrupt flushing. If irritation persists, repeat flushing. Get

medical aid immediately.

**Skin:** Immediately flush skin with plenty of water for at least 30 minutes while removing contaminated clothing

and shoes. Do NOT interrupt flushing. Get medical aid immediately.

**Ingestion:** For a precaution: Never give anything by mouth to an unconscious person. If victim is conscious and alert,

give 2-4 cupfuls of milk or water. Do NOT induce vomiting. Get medical aid immediately.

Inhalation: Take proper precautions to ensure your own safety before attempting rescue (e.g., wear appropriate

protective equipment). If breathing, move person into fresh air immediately. If not breathing, give artificial

respiration. If breathing is difficult, give oxygen. Get medical aid immediately.

**Notes to** 

Physician/Doctor: Treat symptomatically and supportively.

## **SECTION 5** Fire-fighting Measures

### **Fire Hazard Summary:**

Product does not burn. May react with many metals. Generates heat when mixed with water. Firefighters should wear self-contained respirator and full protective gear. During a fire, irritating and toxic gases may be generated by thermal decomposition or combustion.

**Extinguishing** 

Media:

Whichever is most appropriate for the surrounding fire. Use flooding quantities of water spray or fog.

**Extinguishing Media** 

to be Avoided:

V

DO NOT use dry chemical powders containing sodium bicarbonate, potassium bicarbonate, sodium carbonate, ammonium phosphate, or ammonium sulfate. Nitric acid may react violently

with these extinguishing agents.

Combustion and Thermal

**Decomposition Products:** 

Nitrogen oxides.

## NATIONAL FIRE PROTECTION ASSOCIATION (NFPA) HAZARD IDENTIFICATION

Health: 3 – Short exposure could cause serious temporary or moderate residual injury.

Flammability: 0 Reactivity: 0

Special Hazard:

## SECTION 6 Accidental Release Measures

### **Spill Precautions:**

Personal precautions: Use personal protective equipment.

Ensure adequate ventilation. Evacuate personnel to safe areas.

#### Clean-up:

SMALL SPILLS: Soak up spill with absorbent material which does not react with spilled chemical. Put material in suitable, covered, labeled containers. Flush area with large quantities of water. Contaminated absorbent material will pose the same hazards as the spilled product.

LARGE SPILLS: Evacuate area. Contact fire and emergency services and supplier for advice.

#### **SECTION 7 Handling and Storage**

### **Handling:**

Use only with adequate ventilation and/or personal protective equipment. Wash thoroughly after using. Avoid contact with skin and eyes. Avoid generating vapors or mists. Avoid contact with all incompatible materials. When diluting, always add acid to cold water slowly and in small amounts. Never use hot water and never add water to the acid.

Store in a tightly closed container in a cool, well ventilated and dry area.

Store at room temperature, unless stated otherwise.

Store away from incompatible materials, heated areas, sparks, and flames. Do not store in metal or glass containers.

#### **Additional Information:**

The mixture is intended for use in a laboratory. The mixture as supplied is stable under normal laboratory conditions.

#### **SECTION 8 Exposure Controls and Personal Protection**

#### **EXPOSURE GUIDELINES**

#### **Nitric Acid**

NIOSH: 2 ppm TWA (5 mg/m<sup>3</sup> TWA); 4 ppm STEL (10 mg/m<sup>3</sup> STEL) 2 ppm TWA (5.2 mg/m<sup>3</sup> TWA); 4 ppm STEL (10 mg/m<sup>3</sup> STEL) ACGIH:

OSHA Final PEL: 2 ppm TWA (5 mg/m<sup>3</sup> TWA)

#### **Preventive Measures:**

Eye-wash station in proximity. Avoid contact with skin and eyes. Eye / Face

protection:

Skin Wear suitable clothing and gloves. Refer to OSHA's protection regulations in 29 CFR

1910.133 or European Standard EN166. protection:

Inhalation / Use in a chemical fume hood.

**Ventilation:** 

Personal Do not eat or drink in work areas. Wash hands thoroughly after handling this material. **Hygiene:** 

Maintain good housekeeping. Handle in accordance with good industrial hygiene and safety

practice. Wash hands before breaks and at the end of workday.

Use laboratory fumehoods in case of insufficient ventilation.

**Appropriate** 

**Engineering** Controls:

#### **SECTION 9 Physical and Chemical Properties**

c. -7 °C Aqueous Liquid **Melting/Freezing Point:** Form: Color: Colorless **Boiling Point:** c. 102 °C

Odor: Odorless

Odor Threshold: Not Available < 1.0 pH:

**Density:** (@ 20 °C) Solubility: soluble in water c. 1.078 g/ml Not Available **Vapor Density:** Viscosity: (@ 20 °C) Not Available

#### **SECTION 10** Stability and Reactivity

**Chemical stability:** Stable at room temperature and conditions of use.

**Incompatible Materials:** Reacts with bases. **Conditions to avoid:** High temperatures. **Hazardous Decomposition** Nitrogen oxides.

**Products:** 

**Hazardous Polymerization:** None reported.

#### **SECTION 11 Toxicological Information**

**Potential Health Effects** 

May cause eye irritation or burns. Eye: Skin: May cause skin irritation or burns. **Ingestion:** May be harmful or fatal if ingested.

Inhalation: None expected.

**Effects of Short-Term (Acute) Exposure** 

Nitric Acid

Fatal dose for humans: 5-10 ml conc. HNO<sub>3</sub> LD50/LC50:

No information found.

**LC50** (lethal concentration, 50% kill) Inhalation, rat – 260 mg/m<sup>3</sup>/30M

**Effects of Long-Term (Chronic) Exposure** 

Respiratory or

skin

sensitization:

Germ Cell

No component of this product at levels greater than 0.1% is classified as a mutagen.

**Mutagenicity:** 

Reproductive **Toxicity:** 

No component of this product at levels greater than 0.1% is classified for reproductive

toxicity.

**STOT- Single** 

exposure

Causes severe skin burns and eye damage (Nitric Acid).

**STOT- Repeated** 

exposure

No definitive information available on target organs toxicity, repeated exposure.

Aspiration

No information found.

**Hazard:** 

**Carcinogenicity:** Not listed as a carcinogen by NTP, or CA Prop 65.

Component of this preparation listed in the National Toxicology Program ARC (12th Report

on carcinogens): None.

Component of this preparation appearing in the list (June 22, 2012) of chemicals known to the state of California to cause cancer or reproductive toxicity (California Proposition

65): None.

No evidence of cancer has been demonstrated for this product.

Signs and symptoms of exposure:

In contact with the eyes, nitric acid produced severe burns. Depending on the Eye:

concentration and duration of contact with the eye, these burns may result in adhesions between tarsal and bulbar conjunctivae, permanent corneal opacification, and visual

impairment leading to blindness.

Dilute solutions of nitric acid produced mild epidermal irritation and can harden the Skin:

epithelium without producing corrosion seen after contact with more concentrated

solutions.

Inhalation: Symptoms from breathing in (inhaling) concentrated nitric acid may include: bluish

colored lips and fingernails, chest tightness, choking, coughing, coughing up blood,

dizziness, low blood pressure, rapid pulse, shortness of breath, and weakness.

**Ingestion:** Symptoms from swallowing nitric acid may include: severe abdominal pain, burns to skin

or mouth, fever, severe mouth pain, rapid drop in blood pressure, throat swelling (which

leads to breathing difficulty), severe throat pain, and bloody vomiting.

## **SECTION 12** Ecological Information

**Eco- toxicity:** no information about this preparation is available. **Mobility in soil:** no information about this preparation is available.

**Persistance and degradability:** no information about this preparation is available. **Bioaccumulative potential:** no information about this preparation is available.

## **SECTION 13** Disposal Considerations

### **Product disposal:**

The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material, run off and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional and local authority requirements. Contact a licensed professional waste disposal service to dispose of this material.

Review federal, provincial and local government requirements prior to disposal. Store material for disposal as indicated in Storage Conditions.

**Contaminated packaging:** Dispose of as unused product.

## **SECTION 14** Transport Information

IDMG (sea):

**UN-Number:** 3264 **Class:** 8

Packing group: III

**Proper shipping name:** Corrosive liquid, acidic, inorganic, n.o.s. (nitric acid)

**Marine pollutant:** No

ADR/DOT (road):

**UN-Number:** 3264 **Class:** 8

Packing group: III

**Proper shipping name:** Corrosive liquid, acidic, inorganic, n.o.s. (nitric acid)

**Marine pollutant:** No

ICAO/IATA (air):

**UN-Number:** 3264 **Class:** 8

Packing group: III

**Proper shipping name:** Corrosive liquid, acidic, inorganic, n.o.s. (nitric acid)

**Marine pollutant:** No

## **SECTION 15** Regulatory Information

**US Federal:** 

**TSCA** Listed on the TSCA Inventory (Nitric Acid 70%).

**US State:** 

**California Prop. 65** See Section 11.

**Canada** 

WHMIS Classifications:

E – Corrosive material

EU

Classifications: C - Corrosive

Risk Phrase(s): R34- Causes severe burns.

R36/38- Irritating to eyes and skin.

**Safety Phrase(s):** S1/ 2- Keep locked up and out of the reach of children.

S26- In case of contact with eyes, rinse immediately with plenty of water

and seek medical advice.

S36- Wear suitable protective clothing.

S45- In case of accident or if you feel unwell, seek medical advice

immediately (show the label where possible).

## **SECTION 16** Other Information

Revised: November 23, 2017

Date of previous revision (s): January 17, 2017

Details of revision (s): Not Applicable

The statements contained herein are offered for informational purposes only and are based upon technical data. SCP SCIENCE believes them to be accurate but does not purport to be all-inclusive. The above-stated product is intended for use only by persons having the necessary technical skills and facilities for handling the product at their discretion and risk.
